Our Goals

Leader freight exchanges by e-mail

With 8000+ load and transport subscriptions by e-mail, we have already one of the biggest advantages that we shall use to our great extend to make the best working freight exchange products.

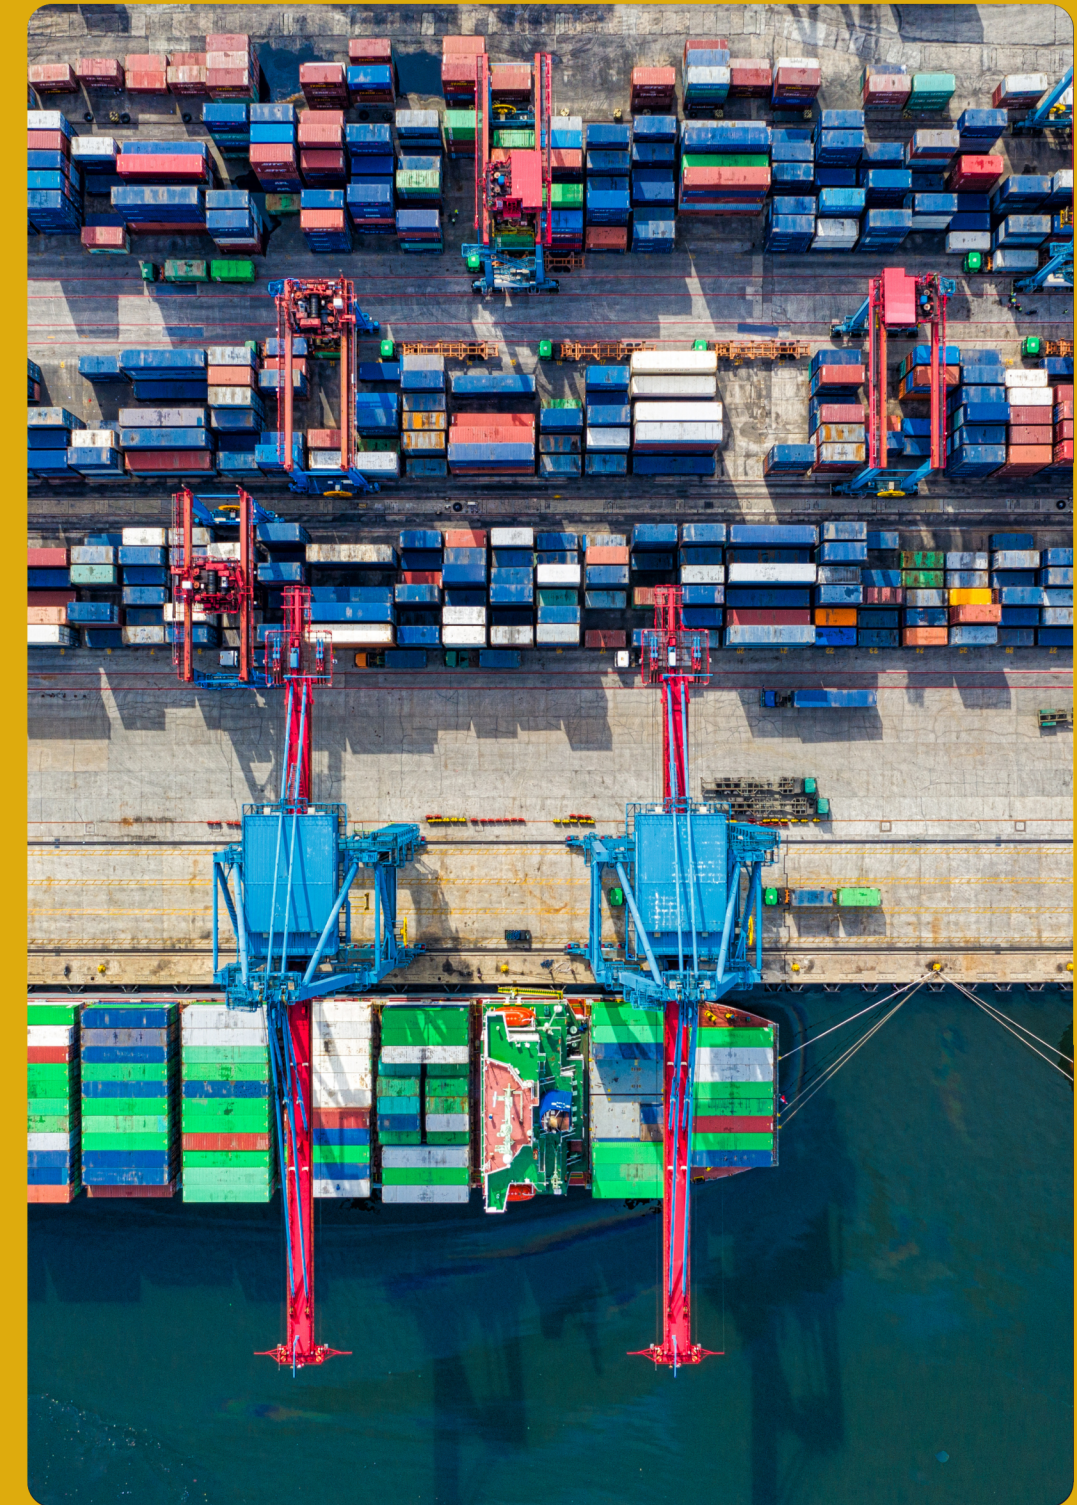

Leader DEX B2B FE in Europe

We shall build the greatest DEX freight exchanges where logistic professionals could announce multiple loads & trucks in a decentralized and personalized way.

Leader carload exchange in Europe

We shall build the most effective B2B DEX carload exchange to connect car-dealers, shippers, factories, freight forwarders with car-carriers.

BUSINESS PLAN

Our services are based on subscription fee, CargoNet is full product so the price is higher than TransNet and we aim that pricing model for both services is adjusted to big, medium or small companies.
